- 2 -25X1 subject port is not suitable for a vessel drawing 26° although voyage charter guaranteed 27%. Bredging operations have deepened the barbor, especially alongside wharves, but insufficient dredging has been undertaken along the narrow entrance channel and at the sea buoy. Two other ships were reported aground at the sea buoy on the tongue of the bank labeled desig-The three most critical portions 25X1 nator E of the channel are located at designators E. F and G. 25X1 Weather during period of call was cold with some rain and no snow Righest temperature recorded in port was 41°T, and lowest reading was 25°T. Winds were very strong 25X1 gale varnings were displayed. In the approaches to 25X1 subject port the tide does not influence water depth, but westerly winds will drive water out of the chammel toward the Baltic Sea and lower depth by several feet. 25X1 4. Anchorage positions desigmators A, C, and D. These anchorages were all over good holding ground. 25X1 Controls Several other army guards were seen patrolling the wharf area. To go ashore, all persons were required to be checked out by a Volkspolizei guard at the dock gate. 25X1 7. Harbor Craft two diesel tugs, one about 1200 horsepower from Rostock and the other about 800 horsepower used to tow lighters. One other tug was observed at subject port. 25X1 **Bert**h berth at designator H at 302030A Berth was one of three alongside a stone quay in the Kohlen-The north side of this basin has been dredged to 30° at berth labeled designator L, but only 20° at berth labeled designator H. Three railroad track spurs are located on the quay apron and wooden fenders are located along the face of the quay. This quay is in the best condition of any at 25X1 Two warehouse sheds are located in the subject port middle of the quay. Four stationary cranes of about five-ton capacity are located on the apron. Road clearance is afforded by a roadway running the length of the quay. Approximately seven days were required for offloading total cargo of 7600 metric tons phosphate. Delay was frequently encountered when insufficient railroad cars were available to receive cargo and work was stopped. Sketch of quay is drawn on the following page.

Tracks are not used; cranes Warehouses are stationary Three Railroad Spur Tracks and Crane Tracks on Apron 9. Men Construction A new spartment house development is located in the vicinity of designator I. This housing is intended for some workers employed in the shippard and their families. only those workers who excel in meeting production quotas are permitted to live in this apartment development. 10. Shipbuilding and Ship Repair a passenger and a merchant versel being rebuilt alongside the shippard at designator J. No new vessels were under construction. The shippard is equipped with several large bridge crames. The marine ways were unoccupied. The passenger vessel being rebuilt alangside is a former German vessel of about 20 thousand gross tons. 25X1 this vessel has been salvaged and was recently in the Baltic for trials during which she attained a speed of 14 knots. Upon return to shipperd it was found that vessel's machinery was full of sand, and it was 25X1 necessary to remove the engines. the Communist Party officials at the shippard ordered work completed on the vessel by 18 Mov 55 the shippard has over eight thousand employees, C-0-X-Y-I-D-X-X-T-I-A-L LIMITED MOPORN NO DIBBIN ABROAD
